## TINTING

Sick of wearing mascara, or would like to darken your eyelashes to create a fuller lash? Give eyelash tinting a try!

**Eyelash Tinting** ..... 20

**Eyebrow Tinting** ..... 15

**Hybrid Brow Tint** ..... 15

Brow dye with similar intense and long-lasting effects as Henna. It is highly pigmented, stains sparse brows and suits most skin types. It can give a dramatic or natural look without any ammonia. It's for women who are after a tint that will last longer than regular tint.

**Lash Lift & Lash Tint** ..... 80

This treatment involves two separate processes, both designed to give you beautiful, fluttery eyelashes for weeks. The lash lift mimics the effect of an eyelash curler. It makes your lashes bend upwards, leaving them looking longer, and your eyes more open and brighter.

# LASER HAIR REMOVAL

## THE BENEFITS OF LASER PERMANENT HAIR REDUCTION

### Greater Speed

- Fast and efficient. Improved comfort
- Laser's chilled sapphire tip provides skin cooling to keep the skin cool

### Safety and Efficiency

- Laser has greater versatility and contact cooling allow greater safety, fewer side effects, and higher efficiency than other systems on the market

## HOW DOES LASER REMOVE HAIR?

Laser is a system that uses light to target certain chromophores in hair while leaving the surrounding skin unharmed.

Using this technology, laser is able to safely, efficiently, and permanently reduce hair growth with little or no downtime. Our clients often return to work immediately following treatments!

## WHAT CAN LASER TREAT?

- Unwanted dark facial and body hair
- Flat, benign pigmented lesions (freckles, sunspots and general pigmentation)
- Facial vascular lesions (spider veins, red spots and broken capillaries)
- Diffuse redness, rosacea and red scarring
- Poikiloderma (redness, pigmentation and a spotty look to the neck and/or decolletage)
- Uneven skin colouring, sun damage.

To provide the best service possible, and offer the greatest flexibility in booking your time, a minimum 24 hours' notice is required for any cancellations.

Approx. 45 minutes

This treatment includes facial cleanse, enzyme Q-Switch 1064 / SPF moisturiser & hydrating serum.

**Package 2: Q-Switch Exfoliation & LED** ..... 299

Approx. 70 minutes

Included in this treatment is an exfoliation & deep cleanse, Q-Switch 1064 , and your choice of epiblading, chemical peel or microdermabrasion.

To finish your treatment off you will have an LED light treatment. This reduces fine lines and wrinkles, reduces the appearance of pigmentation and redness, and promotes healthier, younger-looking skin.

**Package 3: Q-Switch & Genesis Spot Treatment** ..... 385

Approx. 90 minutes

Genesis dual toning is a new method of non-ablative skin rejuvenation, often used to treat sun damage and hyperpigmentation.

This treatment utilizes two different wavelengths of Q-Switch Laser, which work on pigment similarly to tattoo removal, using a nanosecond pulse to shatter the underlying pigment in the skin. This creates a photo-acoustic response.

Treatment includes facial cleanse, enzyme, Q-Switch & laser genesis, LED, SPF & hydrating serum and your choice of epiblading /chemical peel or microdermabrasion.

# MICRODERMABRASION

Microdermabrasion ensures you have the cleanest possible skin. It is a system that exfoliates with diamonds while simultaneous cleaning the skin.

## **Microdermabrasion ..... 100**

Microdermabrasion is the newest way to ensure that you have the cleanest skin possible.

Skin has pores and follicles that need to be regularly cleaned, and dirty, blocked skin is characterised by blackheads, congestion and blemishes.

Microdermabrasion is a system that deeply exfoliates the skin. It cleans and decongests, and leaves your skin feeling soft, renewed, and incredibly smooth. Brilliant to use before having other facial treatments, as your skin will be far more receptive to products once all those dead skin cells have been cleaned away.

# OXYGEN THERAPY

## **Oxygen Facial ..... 100**

The oxygen facial has two main goals: hydration and the non-invasive treatment of fine lines and wrinkles. After analyzing and cleansing your skin the machine uses an airbrush to deliver pressurized oxygen deep into the skin, along with a concentrated serum that contains hyaluronic acid. As the airbrush makes its way over the skin in small circles, you'll feel a gentle blast of cool air.

Afterwards, skin looks noticeably plumped, smoother, and dewier, and there's no redness or sensitivity. In fact, we recommend getting the treatment just prior to a big event—even on your wedding day—and makeup can be applied immediately afterwards. Each service lasts approximately 30 minutes.

# MASSAGE THERAPY

*Indulge Yourself with our relaxing treatments and reach a state of renewal for your mind and body.*

## **Anti-Stress Massage ..... From 75**
